ESS Batteries by Samsung SDI

Top Safety & Reliability Solutions

SAMSUNG SDI

SAMSUNG SDI

Creative Energy & Materials Solution Leader

Samsung SDI is leading the change of a new era with lithium-ion batteries.

Through our constant innovation towards excellence, we led with the technological superiority of our innovative IT devices and expanded into electric cars which have now become reality. In addition, we are contributing to the expansion of an eco-friendly environment by the deployment of batteries for energy storage.

We are all dreaming of a better future with BoT (Battery of Things) in which Samsung SDI will provide solutions for the world.

1970 2000 2008 2010 Established Began Lithium-ion **Expanded Business Expanded Business** Samsung SDI **Battery Business** into Energy Storage into Automotives

Powering Tomorrow, Samsung SDI Battery Solution for Energy Storage

Samsung SDI's technology supplies eco-friendly energy solutions for the present and the future.

We provide safe, reliable and long-lasting performance with our Energy Storage solutions. ESS projects are deployed using Samsung SDI's battery solutions optimized for a range from residential to utility-scale projects.

Why Samsung SDI

Samsung SDI optimizes battery systems with advanced cell technology.

Safety First

Multi-Layered **Protection**

Safety first is Samsung SDI priority. Prismatic cell has multi-layered protection at the cell level resulting in best in class safety. In addition, the aluminum exterior has excellent thermal conductivity and cooling performance, and it releases high temperature safely and efficiently from the inside to the outside.

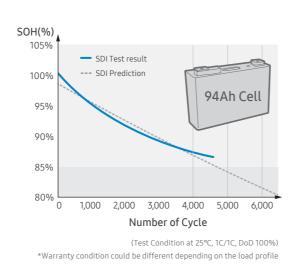

Long Cycle Life

Industry Leading Cycle Life Performance

6,000 Cycles

@continuous 1C /1C, SOH 80%

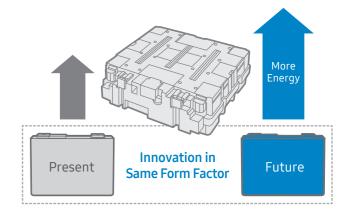

Samsung SDI ESS leverages our manufacturing experience in IT and automotive battery cells resulting in superior and adaptive technology. Samsung SDI ESS is recognized as the industry leader in the market, providing our customers with the safest and long lasting batteries.

Sustainable Design

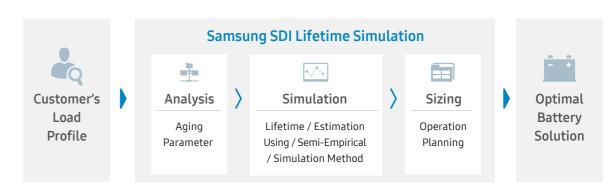

Easy to Upgrade

Capacity without Design Change

We are continuously innovating to increase the energy density while maintaining the same form factor and cell dimensions, thus facilitating future upgrades to higher capacity, higher energy density, ESS with no change to pack design.

Accurate Lifetime Simulation

Samsung SDI offers optimal battery solution with its superior lifetime prediction technology. We design and propose a battery system with analyzing the various parameter such as purpose, operation period and installation environment.
